### 1. Introduction

The purpose of the NordDRG Forum is to have a common platform which manages all issues that are relevant for the Nordic Casemix cooperation. The NordDRG Forum contains all issues that relate to the yearly updating process of the NordDRG system.

In 2013 Nordic Casemix Centre has taken into use a new system for managing the NordDRG Forum. The new system provides transparent and real-time documentation between national owner organizations and Nordic Casemix Centre.

The system is an open source software called RedMine (<http://www.redmine.org>). The system is very versatile and can be used for many different purposes and in many different ways. This User Guide is meant to give new users an introduction to what the system is used for in the NordDRG cooperation and how to get started using it.

During 2013 the structure and the terminology of the new Forum has been planned and defined and the system has been taken into daily use. Old forum cases have been transferred to the new system so that the history of the updating process of NordDRG is available all in the same place.

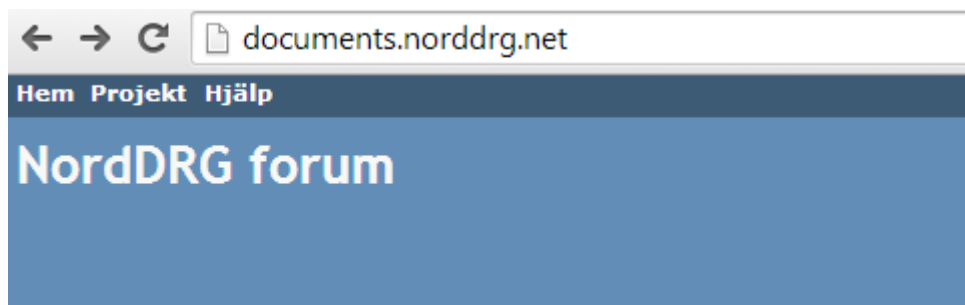

Anyone with internet access can visit the NordDRG Forum (<http://documents.norddrg.net>). Without log in rights it is possible to see all the issues and use the search function. For editing cases and adding issues the user must be logged in to the system.

All members of the NordDRG cooperation team, the Expert Network Group, have access to the system and together with Nordic Casemix Centre this group is responsible for keeping the issues in the NordDRG Forum up to date.

Nordic Casemix Centre is responsible for the technical upkeep of the system.

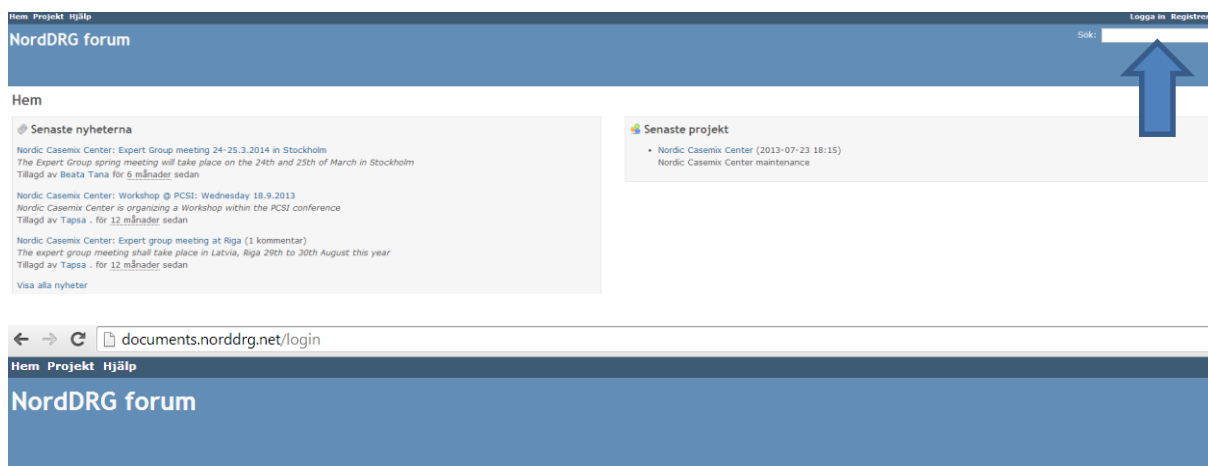

### 2. Getting started

1. Go to <http://documents.norddrg.net>

The language of the program/system is the same as your computer language.

2. Log in to the system in the upper right corner.

All members of the NordDRG Expert Group have been added to the system and have received username and password.

Log in information:

Username: first letter of first name plus last name (for example btana)

Password: first name plus 2014 (for example beata2014) (last name if first name is too short)

Please contact Nordcase [norddrg@nordcase.org](mailto:norddrg@nordcase.org) if you have trouble logging in to the system.

- Once logged in the system displays the home page which shows the latest news and projects

The news are updated by Nordic Casemix Centre.

- Go to latest projects and click on Nordic Casemix Centre

documents.norddrg.net

## 3. Pages of the project interface

### 3.1. Overview

The overview is an outline of the NordDRG Forum.

The screenshot shows the 'Overview' page of the NordDRG Forum. The page header includes navigation links (Home, My page, Projects, Administration, Help) and user information (Logged in as tpasanen, My account, Sign out). The main navigation bar contains links for Overview, Activity, Roadmap, Issues, New issue, Gantt, Calendar, News, Documents, Wiki, Files, and Settings. The Overview section displays the following information:

- Nordic Casemix Center maintenance**
  - Homepage: [www.nordcase.org](http://www.nordcase.org)
- Issue tracking**
  - Case: 92 open / 248
  - Task: 17 open / 49
  - Development initiative: 5 open / 6
  - Questions and answers: 1 open / 1
  - Meeting : 2 open / 11
  - Version: 11 open / 11

The overview displays a recap of the most relevant information i.e. the issues, the members and the latest news

#### 3.1.1 Issue tracking

The managers of the NordDRG Forum have defined five different types of items that are relevant for the NordDRG cooperation.

The screenshot shows the 'Issue tracking' section of the NordDRG Forum. It displays the following information:

- Issue tracking**
  - Case: 92 open / 248
  - Task: 17 open / 49
  - Development initiative: 5 open / 6
  - Questions and answers: 1 open / 1
  - Meeting : 2 open / 11
  - Version: 11 open / 11
- [View all issues](#) | [Calendar](#) | [Gantt](#)

## 1. 3.1.1.1 Case

Click Case and all open and active cases will be displayed, this is the system default.

A case in the new system has the same meaning as in the old forum.

A case is the same as an update proposal.

The screenshot shows the 'Issues' section of the NordDRG Forum. At the top is a navigation menu with options: Overview, Activity, Roadmap, Issues (selected), New issue, Gantt, Calendar, News, Documents, Wiki, Files, and Settings. Below the menu, there are filter options: Status (set to 'open'), Tracker (set to 'is'), and a search box containing 'Case'. There are also 'Apply', 'Clear', and 'Save' buttons. The main content is a table of cases with the following columns: #, Tracker, Status, Priority, Subject, Target year, Start date, and Target version.

#	Tracker	Status	Priority	Subject	Target year	Start date	Target version
326	Case	Active	Major	Case 2004-MDC08-02 'Primary prosthetic replacement of other single IP joint' - error correction	2005	2004-03-02	
303	Case	Active	Minor	Ventricular tachycardias	2015	2014-03-11	Expert Group 2014
302	Case	Active	Minor	Difference in the CC exclusions of corresponding dx's in different countries	2015	2014-03-11	Expert Group 2014
301	Case	Active	Minor	Polyneuropathy in infectious and parasitic diseases classified elsewhere (G6300) - central nervous system infection?	2015	2014-03-11	Expert Group 2014
300	Case	Active	Minor	Third degree perineal laceration during delivery	2015	2014-03-11	Expert Group 2014
299	Case	Active	Minor	Routine and ritual circumcision	2015	2014-03-11	Expert Group 2014
298	Case	Active	Minor	Chronic laryngitis is not an acute infection	2015	2014-03-11	Expert Group 2014
297	Case	Active	Minor	Vincent's infections	2015	2014-03-11	Expert Group 2014
296	Case	Active	Minor	Code pair problems	2015	2014-03-11	Expert Group 2014
295	Case	Active	Minor	Difference in the properties of corresponding dx's in different countries	2015	2014-03-11	Expert Group 2014
294	Case	Active	Minor	Unnecessary code pairs in the DG1 and ICD tables	2015	2014-02-13	Expert Group 2014
293	Case	Active	Minor	ZZQ20 and 03S01	2015	2014-02-13	Expert Group 2014
292	Case	Active	Minor	Z412 (circumcision) must have OR	2015	2014-02-13	Expert Group 2014
291	Case	Active	Minor	Vincent infections	2015	2014-02-13	Expert Group 2014
290	Case	Active	Minor	Third degree penneal laceration and 14X11	2015	2014-02-13	Expert Group 2014
289	Case	Active	Minor	Noninvasive respirator treatment	2015	2014-02-27	Expert Group 2014

By changing the filters you can choose which cases the system displays. For example if you wish to see all closed i.e. accepted cases, change the status of the filter to closed.

You can narrow the search even more by adding filters. For example if you wish to see all closed accepted cases from one particular year add the filter "target version" and choose from list. The target version refers to at which Expert Group spring meeting the particular case has been discussed.

Always click on Apply after changing a setting.

## 2. 3.1.1.2 Task

Click Task and all open and active tasks will be displayed, this is the system default.

### NordDRG tasks 2014

Actions and deadlines for NordDRG updating process 2015

**Description** [Quote](#)

*Delivery of updated list of DRG changes and Technical changes for National versions to Nordic Casemix Centre.*

Attn: The Nordic Case-Mix Centre and Datawell

Changes to the Norwegian 2014 grouper version are specified in the attached Excel spread sheet. The specified corrections and adjustments are necessary to make previously specified changes work properly, or to keep other parts of the grouping logic unchanged compared to the 2013 version. No new DRGs or other major changes are presented.

The need for changes is based on two types of testing:

- Comparison of definition tables (2013 production version vs. current 2014 version)
- Comparison of grouping results (2013 production version vs. current 2014 version)

All changes are given an ID in the 'National ID' column in the format: QA-NOR2014Pr0b-###. This ID string is made up of three parts:

QA: 'Quality assurance' (To show that the change is all about error corrections and not entirely new grouping functions).

NOR2014Pr0b: To show which version of the grouping logic the changes applies to.

###: A running number to separate the different change items from each other.

Overview of specified changes, grouped by ID string:

QA-NOR2014Pr0b-001 Missing rule for DRG 55P A special rule in the Norwegian 2013 version for DRG 55P has disappeared from the current 2014 version, and is reintroduced.

QA-NOR2014Pr0b-002 Wrong code format for several tonsillectomy DRGs Leading spaces are reintroduced.

QA-NOR2014Pr0b-003 Wrong code for the DRG 'Brakyterapi ved prostatakref' The code 852M is replaced by 852N.

QA-NOR2014Pr0b-004 Error correction for the new DRG 856X The rules for DRG 856X have previously been specified with a MDC=40 criterion. This is clearly a mistake. The MDC field in these rules are changed to blank/empty. Additionally the ORD values are changed since they now conflict with the ORD values of DRG 856R rules.

QA-NOR2014Pr0b-005 Error correction for the new DRG 981X The rule for DRG 981X has previously been specified with a MDC=30 criterion. This is clearly a mistake. The MDC field in this rule is changed to blank/empty.

QA-NOR2014Pr0b-006 Reversal of changes to 8770 The grouping logic for 8770 was originally changed in relation to the new 980\_ DRGs. However, current grouping rules conflict with each other. 980\_ Grouping rules catch cases intended to be caught by 8770 and vice versa. To correct this, the duration criterion for 8770 is reversed to '<1'. Additionally, a hierarchy change is made for one of the 8770 rules.

QA-NOR2014Pr0b-007 Corrections to grouping logic for cancer drug treatment DRGs National coding rules for cancer drug treatment are subject to change from 2013 to 2104. Full compliance with new rules are not expected from day one unless erroneous coding affects grouping in a clear way. A new rule for 470 is therefore introduced to catch all cases where the 2013 coding rules are followed. (Like before, the rules for DRG 492 and 4920 are kept in the definition tables because of the relation to the common Nordic version).

QA-NOR2014Pr0b-008 Special properties for procedure code ABD40 The NCSF code ABD40 has had other properties in the Norwegian version than in the common Nordic version. Property 01502 should be replaced by 01551. This will also be discussed in the Nordic expert group as a change item for 2015.

QA-NOR2014Pr0b-009 Assignment of procedure property 01011 Too many codes have been assigned procedure property 01011 in the 2014 version. In 2013 only one code had this property (IAAK00), and this situation is restored.

QA-NOR2014Pr0b-010 Assignment of procedure property 01012 The special code 3AX01 has been assigned procedure property 01012 in the 2014 version. In 2013 only one code had this property (ACGX90), and this situation is restored.

QA-NOR2014Pr0b-011 Assignment of diagnosis property 14X41 ICD-10 code O359 has lost its 14X41 property.

QA-NOR2014Pr0b-012 Adjustments to the list of 'same day emergency care conditions' (pdgprop 40P80) Based on test grouping and the relation between medical coding and information about level of emergency, several ICD-10 codes show bad relationship with emergency care. The 40P80 list is revised accordingly.

QA-NOR2014Pr0b-013 New procedure codes 5 national procedure codes are added. None of these should have any grouping properties.

QA-NOR2014Pr0b-014 MDC name revision All English names are replaced by Norwegian names.

QA-NOR2014Pr0b-015 DRG name revision Several changes are to be made to the DRG names and a few times also to the DRG code. The easiest approach is to delete all, and replace with a completely new list.

Please do not hesitate to contact me in case of any questions.

Yours sincerely

**Subtasks** [Add](#)

**Related issues** [Add](#)

Some tasks are more extensive than others and the delivery of these will result in adding separate cases to the system.

For example the delivery of update proposals for major and minor updates are added as separate cases and discussed one by one at the Expert Group spring meetings.

Development initiatives refer to projects initiated on a national level. The national level projects can result in adding a new case i.e. update proposal to the system. All cases relating to a development initiative will be set with the issue number (#) of this project.

For example in Sweden a working grouping has started in 2010 to try to develop a better description of hand surgery. The work of this group will hopefully result in update proposal for change in the NordDRG 2016 system.

#### Development initiative #70

**Description** [Quote](#)

**Mats Fernström 2014-01-10**

Hand surgeons have complained on the NordDRG description for many years. Therefore we started a working group to try to develop a better description of hand surgery in the autumn 2010. The group consists of Sven Abrahamsson, head of the hand surgery clinic in Malmö, Paul Tordai, private hand surgeon in Stockholm (and also the National Board of Health and Welfare's contact person in classification issues in hand surgery), Ralph Dahlgren, Susan Bengtsson and Mats Fernström (all three at the National Board of Health and Welfare). Mats Fernström is the convener.

The group started to invent what kind of diagnoses and procedures that come into question on hand surgery clinics and then these cases were preliminary divided into nine groups depending on estimated resource consumption. The next step is to add the proper diagnosis and procedure codes and construct grouping rules and then test the logic on the national patient database with case costing (Swedish KPP database). A proposal for change in the NordDRG system will not be ready until the spring 2015.

Questions and answers is meant to be used as a platform for discussion topics relevant to the NordDRG work. The questions can be addressed to all users (expert group members) and if necessary the question can be added as a case i.e. update proposal.

If the user wishes to address the question to someone in particular this is possible by adding watchers.

## 6. 3.1.1.6 Version

Click version and you will be able to find all national versions and common version tickets. (These tickets replaces the separate task tickets which have something to do with versions.)

Version includes all the actions and deadlines defined in the NordDRG Timetable (excel).

General deadlines	Note	Deadline	Action/deadline	Responsibility
Year 2014				
Week 05	At least 30 working days before Expert group	2014-01-27	Delivery of major update proposals for NordDRG (NordDRG Forum) from the national organizations	National organisations Nordic Casemix Centre working groups
Week 09	At least 10 working days before Expert	2014-02-24	Delivery of minor update proposals for NordDRG (NordDRG Forum) from the national organizations	National organisations Nordic Casemix Centre
Week 11		2014-03-10-11 (Monday-	Expert Network Meeting regarding recommended updates	Nordic Casemix Centre and National organisations
Week 12	3 working days after Expert Network	2014-03-17	Report of Expert Network Meeting results	Nordic Casemix Centre
Week 13	7 working days after Expert Network	2014-03-20	Preliminary list of technical and DRG changes	Nordic Casemix Centre
Week 13	10 working days after Expert Group	2014-03-26, latest, not decided	Board Meeting on update decisions with the technical changes. All the changes must contain the technical changes	Board
Week 14	5 working days after Board	2014-04-02	Delivery of Common Nordic list of DRG changes and technical changes to Datawell	Nordic Casemix Centre
Week 15	20 working days after Expert Network	2014-04-8	Delivery of national lists of DRG changes and technical changes to Nordic Casemix Centre	National organisations

The tasks are the structure of the yearly updating process of the NordDRG system.

The idea is to gather all the deadlines under one ticket per version each year, so that each step will be easily found. Every time an assignment within a version has been completed, the person who has completed it should leave a comment to the history.

This way everyone can check where each versions are standing at the moment and who has done which assignment to the version in question.

When you have clicked Version, you will see this listing:

The screenshot shows the Nordic Casemix Center web interface. The main navigation bar includes 'Overview', 'Activity', 'Roadmap', 'Issues', 'New issue', 'Gantt', 'Calendar', 'News', 'Documents', 'Wiki', 'Files', and 'Settings'. The 'Issues' section is active, displaying a list of issues with columns for '#', 'Tracker', 'Status', 'Priority', 'Subject', 'Target year', 'Start date', and 'Target version'. The issues are filtered by 'Version' and 'open' status. A sidebar on the right shows 'View all issues', 'Summary', 'Calendar', 'Gantt', and 'Custom queries'.

#	Tracker	Status	Priority	Subject	Target year	Start date	Target version
347	Version	Active	Normal	NordDRG 2015 FIN CC	2016	2014-10-13	
346	Version	Active	Normal	NordDRG 2015 NOR MTR	2016	2014-10-13	
345	Version	Active	Major	NordDRG 2015 SWE MTR	2016	2014-10-13	
343	Version	Active	Normal	NordDRG 2015 Lat	2015	2014-01-01	
342	Version	Active	Normal	NordDRG 2015 Est	2015	2014-01-01	
341	Version	Active	Normal	NordDRG 2015 Den	2015	2014-01-01	
340	Version	Active	Normal	NordDRG 2015 Ice	2015	2014-09-22	
339	Version	Active	Normal	NordDRG 2015 Nor	2015	2014-10-09	
338	Version	Active	Normal	NordDRG 2015 Swe	2015	2014-09-22	
337	Version	Active	Normal	NordDRG 2015 Fin	2015	2014-10-14	
335	Version	Active	Normal	NordDRG 2015 Com	2015	2014-01-01	

After you have clicked Version you can see all the versions (national versions and common version) listed below each other. Each version has a tag with an issue number (#). Click on the tag and the whole issue will appear.

For example here is a picrute of how Common version 2015 looks like at forum.

[View all news](#)

On the right side of the page the overview also displays a list of the latest news.

News that are relevant for the NordDRG cooperation are:

- information about upcoming meetings and events

Information about NordDRG meetings are available in the system both via the news page and via the issue tracking of meetings. The difference is that the meeting as issue is connected to the calendar and the meeting as news is not. Another difference is that the agenda and the minutes of the meetings are only available in the meeting as issue.

- information about finished tasks relating to the NordDRG updating process

The goal is to inform the members of the current status regarding the NordDRG updating process according to the timetable of the work.

## 3.3. Roadmap

The roadmap provides a version-based view of the issue tracking system.

The screenshot displays the NordDRG Forum Roadmap interface. The navigation bar includes tabs for Overview, Activity, Roadmap, Issues, New Issue, Gantt, Calendar, News, Documents, Wiki, Files, and Settings. The main content area shows the Roadmap for the Expert Group 2014, indicating it is about 5 months late (2014-03-24). A progress bar shows 80 issues (0 closed - 80 open) at 0%. A list of related issues is provided, with Case #121 highlighted. The right sidebar contains a Roadmap section with checkboxes for Case, Task, Development initiative, Communication, and Meeting, and a Show completed versions checkbox. Below this is a Versions section listing various versions like Expert Group 2014, Expert Network Meeting, NordDRG tasks 2013, NordDRG tasks 2014, NordDRG tasks 2015, and Primary classification updates 2014. Two blue arrows point from the text in the paragraphs to the 'New version' button and the 'Versions' section in the screenshot.

In the upper right corner it is possible to change the system default of what issues are shown in the roadmap.

Also in the upper right corner is a listing of the versions displayed in the roadmap. Versions refer to the target version of the issue i.e. which group of issues the cases, tasks or meetings belong to.

Target versions:

### 9. 3.3.1 Expert Group 2014

#### Expert Group 2014

about 5 months late (2014-03-24)

Proposals for NordDRG 2015 discussed at spring meeting 2014

 0%

80 issues (0 closed — 80 open)

Related issues

- Case #85: Problem with Cardioversion and anesthesia
- Case #120: Juvenile arthritis in Crohns disease and ulcerative colitis is not meningococcal disease
- Case #121: DRG 2A and 2B Finnish version names are switched
- Case #122: Interventions on haemangioma and anaesthesia
- Case #123: Diagnosis category of chronic laryngitis
- Case #124: Implantation of spinal injection device - Spinal procedure?
- Case #125: Percutaneous transluminal renal denervation
- Case #126: Finnish (and Norwegian) drug interventions in NordDRG
- Case #134: Case 2012-MDC10-02 Error correction DRG 288B
- Case #179: Revision of MDC24 (Multiple significant trauma)
- Case #215: Splitting of the 900-series DRGs
- Case #216: Kidney transplantation with special pre-surgical treatment
- Case #217: Cardiac arrest
- Case #218: Merge / change DRG C15N, C15O with C29N, C29O
- Case #219: Dysfunction of tracheostomy
- Case #227: Procedure QXXB90 'Vacume treatment of wound', should it have CC properties

All update proposals i.e. cases that have been discussed at the Expert Group spring meeting 2014 are set with this target version. When the status of all the cases have been updated (accepted, rejected or further active) this target version can be closed.

A new target version for Expert Group 2015 will then be added to the system and all update proposals for NordDRG 2016 will be set with this target version.

### 10. 3.3.2 Expert Network Meeting

#### Expert Network Meeting

Expert Network Meeting regarding recommended updates

Related issues

All tasks i.e. actions and deadlines of the NordDRG updating process for year 2015, according to the Timetable of the work, are set with this target version. When the due date of the tasks has passed the tasks will be closed but they will still be available in the listing of this target version.

The tasks for 2014 of the national organizations, Nordic Casemix Centre and Datawell regarding the yearly updating process have been updated and closed according to the Timetable of work.

### 12. 3.3.5 NordDRG tasks 2015

#### NordDRG tasks 2015

Actions and deadlines for NordDRG updating process 2016

No issues for this version

All tasks i.e. actions and deadlines of the NordDRG updating process for year 2016, according to the Timetable of the work, will be found from issue called Version .

### 3.4. Issues

The issues of the system refer to all items in the NordDRG Forum.

**Case:** update proposals

**Task:** actions and deadlines which are not defined in the NordDRG Timetable

**Development initiative:** national level projects

**Questions and answers**

**Meeting:** meetings relevant to the NordDRG cooperation

**Version:** common and national versions actions and deadlines defined in the NordDRG Timetable

For a more detailed description of the definitions of the different issues, please see chapter 3.1.1. Issue tracking.

In this chapter the most relevant aspects of the Forum issues is described.

---

**Description**  Quote

*This is a summary of the analyses of the differences between the countries in the CC exclusions of the diagnoses.*

The large number of differing cases is mostly problems with properties of code pairs (1894 cases). They are as a matter of fact correct but the system reports a difference. They are marked green in case column and have '-' in note column .

Additionally there are 123 obvious errors that are marked red. These are marked with red in the note column and '-' in the case column of the attached table. Most of the cases are from DEN version (83 cases) . Usually a property is added or removed from one version, some times from 2-3 versions. However, in for L8180 a number exclusions is only included in SWE and should be added to all versions.

C6960 'Malignant neoplasm of orbit' has for some reason got exclusion for COMPL 11C17 'Obstructive or reflux uropathy '. Only DEN has the obvious correct exclusion 08C22 'Musculoskeletal malignancy'. This should be included in all versions and 11C17 removed.

For example, lets say today is 2014-05-08 and it is the deadline of “Comments and corrections to National Planning 0-versions” and you don’t have any comments nor corrections. You should go to your national version ticket and press update. After your computer has opened similar view as above do the changes:

1. Change the due date to the next due date that is listed in the description panel. ( in this example it would be 2014-05-22)
2. Write your comment in the notes-field (in this example you would write no comments, no corrections) Note that you don’t need to write your name, since you are already signed in, the system will mark it down for you.
  - I. BUT if you did have comments or corrections, this would be the right field for it.
  - II. If you need to add a file, remember to do so.
3. Once you are finished, remember to press submit.

Please note, if you want to change something in the discription field click the picture of a pencil, and the dicription field will open.

## 3.4.2 Custom queries

A custom query refers to a group of issues where the filters of the issues are predetermined.

The managers of the NordDRG Forum have defined some custom queries that we find will be of assistance to the users when searching for issues relevant to the NordDRG work and updating process.

Click on the title of the custom query to see the listing of this particular query.

#	Tracker	Status	Subject	Target year	Target version	Due date
109	Task	Active	Create documentation how to use Git version control system			
45	Task	Active	Publication of NordDRG manuals for Nordic Common version	2015	NordDRG tasks 2014	2014-12-05
43	Task	Active	Publication of table of changes of definition tables of Production versions from previous year with each change linked to case at issue in the List of Technical and DRG changes	2015	NordDRG tasks 2014	2014-10-27
42	Task	Active	Publication of Production version groupers	2015	NordDRG tasks 2014	2014-10-20

## 3.4.3 Update notifications

All issues in the Forum should be appointed an assignee and watchers. The assignee is the person in the national organization responsible for the updating of the issue. The watchers are persons involved in the updating process.

Assignees and watchers of an issue will be notified when updates to the issue have been made. The notification is an automatic message sent from the Forum to the users e-mail.

The sender of the e-mail is [documents@nordcase.org](mailto:documents@nordcase.org).

The user can add a comment to the issue by replying to the e-mail. In this case DO NOT CHANGE THE TITLE OF THE MESSAGE AND DELETE ALL OTHER TEXT EXCEPT FOR YOUR COMMENT!

### 3.5. New issue

The possibility for Forum users to add new issues is available only when logged into the system.

When adding a new issue to the system the first variable you need to choose is the tracker i.e. which type of issue it is.

The screenshot shows the 'New issue' form with the following fields and values:

- Tracker: Case (selected)
- Subject: (empty)
- Description: (empty)
- Status: Active
- Priority: Normal
- Assignee: (empty)
- Target version: (empty)
- Initiator: Denmark
- Case type: (empty)
- Parent task: (empty)
- Start date: 2014-08-25
- Target year: 2015
- Owner / responsible: National organisations

The issues differ from each other in the sense of what type of matter they concern.

**Case:** update proposals

**Task:** actions and deadlines which are not defined in the NordDRG Timetable

**Development initiative:** national level projects

**Questions and answers**

**Meeting:** meetings relevant to the NordDRG cooperation

**Version:** common and national versions actions and deadlines defined in the NordDRG Timetable

For a more detailed description of the five different types of issues see chapter 3.1.1. Issue tracking and chapter 3.4. Issues.

When adding a new issue every type has its own presetting for what variables the system requests the user to fill in. These variables are defined by the managers of the Forum.

## New issue: Case

The screenshot shows the 'New Issue' form in the NordDRG Forum. The 'Tracker' is set to 'Case'. The 'Subject' field is empty. The 'Description' field is also empty. The 'Status' is 'Active', 'Priority' is 'Major', and 'Assignee' is empty. The 'Target version' is empty. The 'Initiator' is set to 'Denmark'. The 'Case type' is 'GEN'. The 'MDC' is 'OR', 'CC', and 'MDC01'. The 'Target Groupset' is 'DEN', 'EST', 'FIN', and 'ICE'. The 'Target year' is set to '2015'. The 'Parent task' is empty, 'Start date' is '2014-08-25', and 'Due date' is empty. The 'Owner / responsible' is 'National organisations', 'Nordic Casemix Centre', 'Board', and 'DataNet'. The 'Old forum status' is empty. There are sections for 'Files', 'Watchers', and a list of users with checkboxes.

## New issue: Task

The screenshot shows the 'New Issue' form in the NordDRG Forum. The 'Tracker' is set to 'Task'. The 'Subject' field is empty. The 'Description' field is also empty. The 'Status' is 'Active', 'Priority' is 'Major', and 'Assignee' is empty. The 'Target version' is empty. The 'Initiator' is set to 'Denmark'. The 'Case type' is 'GEN'. The 'MDC' is 'OR', 'CC', and 'MDC01'. The 'Target Groupset' is 'DEN', 'EST', 'FIN', and 'ICE'. The 'Target year' is set to '2015'. The 'Parent task' is empty, 'Start date' is '2014-08-25', and 'Due date' is empty. The 'Owner / responsible' is 'National organisations', 'Nordic Casemix Centre', 'Board', and 'DataNet'. The 'Old forum status' is empty. There are sections for 'Files', 'Watchers', and a list of users with checkboxes.

## New issue: Development initiative

The screenshot shows the 'New Issue' form in the NordDRG Forum. The 'Tracker' is set to 'Development initiative'. The 'Subject' field is empty. The 'Description' field is also empty. The 'Status' is 'Active', 'Priority' is 'Major', and 'Assignee' is empty. The 'Target version' is empty. The 'Initiator' is set to 'Denmark'. The 'Case type' is 'GEN'. The 'MDC' is 'OR', 'CC', and 'MDC01'. The 'Target Groupset' is 'DEN', 'EST', 'FIN', and 'ICE'. The 'Target year' is set to '2015'. The 'Parent task' is empty, 'Start date' is '2014-08-25', and 'Due date' is empty. The 'Owner / responsible' is 'National organisations', 'Nordic Casemix Centre', 'Board', and 'DataNet'. The 'Old forum status' is empty. There are sections for 'Files', 'Watchers', and a list of users with checkboxes.

## New issue: Version

The screenshot shows the 'New issue' form in the NordDRG Forum. The 'Tracker' is set to 'Version'. The 'Subject' field is empty. The 'Description' field is a large text area with a rich text editor toolbar. The 'Status' is set to 'Active', 'Priority' to 'Normal', and 'Assignee' is empty. The 'Start date' is '2014-10-22' and 'Due date' is empty. The 'Case type' is empty. The 'Target year' is a list box with options 2016, 2015, 2014, and 2013. The 'Owner / responsible' is a list box with options: National organisations, Nordic Casemix Centre, Board, and Datawell. The 'Files' section shows a text input for file names and a note that no files are currently attached. The 'Watchers' section lists 16 users with checkboxes next to their names. At the bottom, there are buttons for 'Create', 'Create and continue', and 'Preview'.

Although different in the sense of what type of items they concern and what presetted variables the system requests, the five types of issues have many technical aspects in common.

The following variables are common for all five types of issues:

### **Subject (open answer)**

Titel of the issue

### **Description (open answer)**

What is the purpose of the issue

### **Status (choose from list)**

The default for all new issues is active. When the issue is dealt with and/or the due date has expired the status will be changed accordingly. The update of the status is done manually by the person appointed as responsible for the issue. The workflow of the status differ depending on the issue. The workflow of the issue statuses is described in chapter 3.4.1. Workflow.

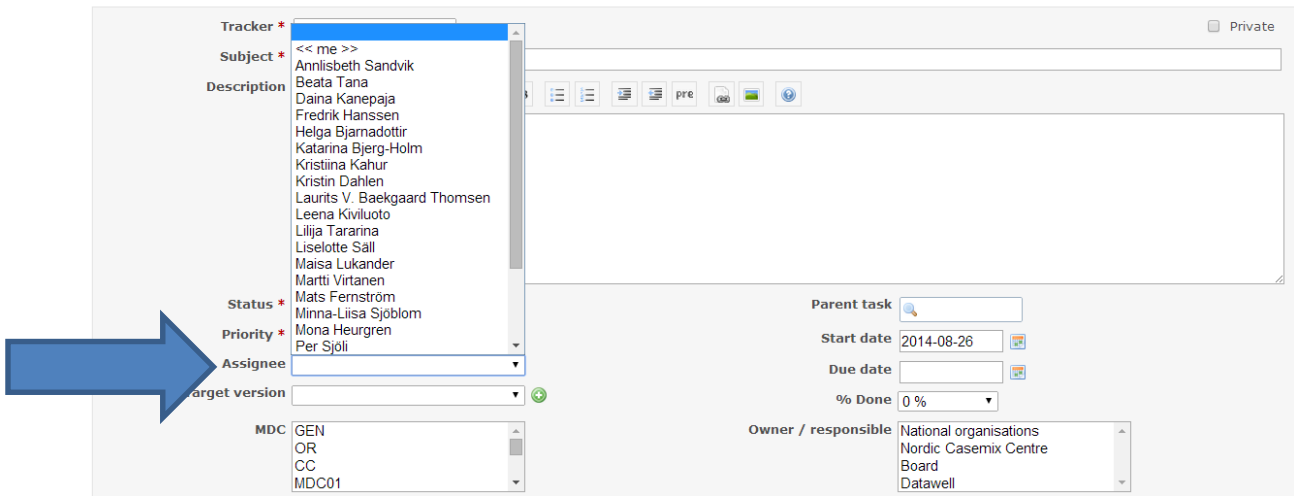

### **Priority (choose from list)**

The default for all new issues is normal.

### **Assignee (choose from list)**

The assignee is the person responsible for the updating of the issue.

## New issue

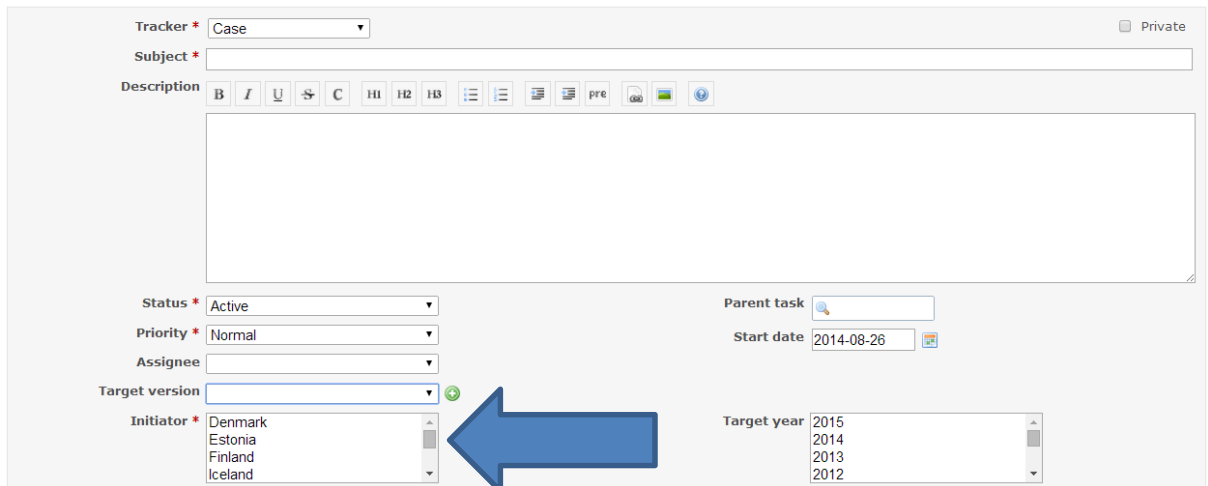

The screenshot shows the 'New issue' form with a dropdown menu open for the 'Assignee' field. A blue arrow points to this menu. The menu lists the following names: << me >>, Annlisbeth Sandvik, Beata Tana, Daina Kanepaja, Fredrik Hanssen, Helga Bjarnadottir, Katarina Bjerg-Holm, Kristina Kahur, Kristin Dahlen, Laurits V. Baekgaard Thomsen, Leena Kiviluoto, Liija Tatarina, Liselotte Säll, Maisa Lukander, Matti Virtanen, Mats Fernström, Minna-Liisa Sjöblom, Mona Heurgren, and Per Sjöli. Other fields in the form include Tracker (set to Case), Subject, Description, Status (Active), Priority (Normal), Parent task, Start date (2014-08-26), Due date, % Done (0%), and Owner/responsible (National organisations, Nordic Casemix Centre Board, Datawell).

### Initiator (choose from list)

The initiator refers to the country from which the initiative to add the new issue has come.

## New issue

The screenshot shows the 'New issue' form with a dropdown menu open for the 'Initiator' field. A blue arrow points to this menu. The menu lists the following countries: Denmark, Estonia, Finland, and Iceland. Other fields in the form include Tracker (set to Case), Subject, Description, Status (Active), Priority (Normal), Assignee, Target version, Parent task, Start date (2014-08-26), and Target year (2015, 2014, 2013, 2012).

## Target year (choose from list)

New issue

The screenshot shows a 'New issue' form with the following fields and options:

- Tracker: Case
- Subject: (empty text box)
- Description: (rich text editor with icons for Bold, Italic, Underline, Link, Code, H1, H2, H3, Bulleted list, Numbered list, Table, Print, Attachments, and Help)
- Status: Active
- Priority: Normal
- Assignee: (empty dropdown)
- Target version: (empty dropdown with a green plus icon)
- Initiator: Denmark, Estonia, Finland, Iceland
- Parent task: (empty dropdown)
- Start date: 2014-08-26
- Target year: 2015, 2014, 2013, 2012

A blue arrow points from the Initiator dropdown to the Target year dropdown.

For cases and tasks the target year refers to which years NordDRG version the issue concerns.

For meetings, communication and development initiatives the target year refers to during which year the due date of the issue is set.

### Start date and/or due date

Start date refers to when the issue has started i.e. been added to the NordDRG Forum.

Due date refers to when the issue is due to be finished.

### Owner/responsible (choose from list)

Refers to which NordDRG cooperation partner is responsible for the issue. Options is national organizations, Nordic Casemix Centre or Datawell.

### Watchers

Refers to all persons involved in or interested in the updating of the issue.

## 3.6. Gantt chart

Displays issues that have a start date and due date or are assigned to a version with a date (for example Expert Group 2014)

**Expert Group meeting 28-29.8.2014 in Reykjavik**

Added by Beata Tana 18 days ago

The Expert Group autumn meeting will take place Thursday the 28th and Friday 29th of August 2014 in Reykjavik. The meeting place is hotel Hilton Reykjavik Nordica ☎ <http://www.hiltonreykjavik.com/>, meeting room D. The agenda of the meeting will be distributed to participants by e-mail before the meeting.

Nordic Casemix Centre has made a pre-reservation for 15 rooms at the Hilton Hotel. This reservation is valid until two weeks prior to the meeting. The price is 24.400 ISK per room per night (Guest Room SGL). Breakfast is 2.800 ISK per person per day. If you choose to make a reservation from the pre-reserved rooms please use the reference number **185746** or the name **Nordic Casemix Centre**. Reservations can be made by e-mail to [reykjavik@icehotels.is](mailto:reykjavik@icehotels.is).

**Expert Group meeting 24-25.3.2014 in Stockholm**

Added by Beata Tana 7 months ago

The Expert Group spring meeting 2014 will take place on the 24th and 25th of March 2014 in Stockholm. The meeting will take place in the building of Dagens Nyheter at Gjørwellsgatan 30. The meeting room is Riddarfjärden, situated on the 7th floor. The meeting agenda is attached.

Nordic Casemix Centre has made pre-reservations for 15 rooms at the Marriot Courtyard Stockholm hotel [[☎ <http://www.marriott.com/hotels/travel/stocy-courtyard-stockholm-kungsholmen/>]]. The hotel is located on Rålambshovsleden 50 and is within walking distance from the meeting place. The special group price is 1595 SEK (including breakfast) per person per night. The hotel will keep the pre-reservation until two weeks before arrival, thereafter the guest must contact the hotel for reservations based on current availability and price.

The participants are invited to a complementary dinner at the hotel restaurant Monday the 24th at 7 pm.
