- Attachment *Obstetric_ultrasonography_national_proc_codes.xlsx* added
- Priority changed from Minor to Error correction

Nordic Casemix Centre/Kristiina Kahur 27-9-2023

The error corrections was made in ICE 2024PR0 tables. Updated ICE tables (2024PR0a) for testing will be delivered via ticket #882.

PROCPR 14D51 *Obstetric diagnostic imaging procedure* is used in Iceland, Finland and Norway and respective DRG is Combined version is 914FP *Diagnostic obstetric investigation, short therapy*.

National DRGs are as follows:

- 914P Raskauden hoito, diagnostinen toimenpide
- 914P Greinandi rannsókn á meðgöngu, stutt meðferð
- 914P Obstetrisk diagnostisk tiltak, inkludert screening av gravide

In Sweden a different PROCPR 14V04 *Obstetric ultrasonography* is used which takes the cases with this PROCPR to DRG 856V *Obstetric ultrasonography, short therapy/P76O Obstetriskt ultraljud, besök* (used only in Sweden).

All national codes concerning this case are in attached table.

This case will remain open until EG 2024 Spring meeting for other countries to consider and conduct an analysis if needed.

We have now analysed our data and wish to make following changes to FIN 2025 grouper version:

1. We want to have similar change to Iceland, that is adding PROCPR 14D51 to procedures

MA2DE Sikiön yksityiskohtainen vaativa ultraäänitutkimus erikoistekniikoin (MADE2D),

MA2HE Sikiön yksityiskohtainen morfologian ultraäänitutkimus (MADE2H),

MA2JE Sikiön niskapainon mittaaminen ultraäänellä (MADE3A) and

MA2XE Obstetrinen muu ultraäänitutkimus (MADE2X).

2. Additionally we wish to remove PROCPR 14D51 from

LC2AE Kohdun ja sivuelinten ultraäänitutkimus (LCDE2A),

LC2BE Kohdun, sivuelinten ja alavatsan ultraäänitutkimus emättimen kautta (LCDE2A) and

LC2DE Kohdun, sivuelinten ja alavatsan vaativa ultraäänitutkimus erikoistekniikoin (LCDE2A)

as these are not strictly related to pregnancy.

3. We also want to add a new DRG 705O Kardiologinen ultraäänitutkimus, lyhyt hoito (790V Cardiac ultrasonography, short therapy) into Finnish 2025 grouper version and add PROCPR 05V09 to the following procedures

FM1AE Sydämen yleinen ultraäänitutkimus (FXDE1A),

FM1DE Sydämen doppler-UÄ (FXDE1A),

FM1EE Sydämen kattava rakenteellinen ja toiminnallinen ultraäänitutkimus (FXDE1A),

FM1LE Rasitus-UKG (FXDE1A),

FM9AE Sydänsiirännäisten ultraäänitutkimus (FXDE1A),

FM1ME Sydämen dynaaminen rasiitutkimus ultraääni ja EKG yhdistäen (FXDE1B),

FM1BE Sydämen ultraäänitutkimus ruokatorven kautta (transesofageaalinen ultraäänitutkimus) (FXDE4B),

FM1NE Sikiön sydämen ultraäänitutkimus (MADE32),

FM1QE Sikiön sydämen laaja ultraäänitutkimus (MADE32) and

XMA02 Sikiön sydämen ultraäänitutkimus (MADE32)

Technical changes are as attachment.
