### #929 - 2025 updates of NCSP and ATC (Finland)

2024-08-01 08:28 - Lotta Sokka

**Status:** Closed **Start date:** 2024-08-01  
**Priority:** Minor **Spent time:** 0.00 h  
**Assignee:**  
**Category:**  
**Initiator:** Finland **Target year:** 2025  
**Target Grouper:** **Owner / responsible:**

#### Description

Finland's updates for NCSP and ATC codes can be found in the Excel file attached. No changes for ICD-10.

#### History

##### #4704 - 2024-08-26 15:30 - Lotta Sokka

- Attachment *FIN\_updates\_2025\_edited.xlsx* added

We wish to make a "last minute" change concerning the features of the procedure code JDA46 Endoskooppinen submukoosadissectio (ESD) mahalaukussa (JDSA46 Endoscopic submucosal dissection in the stomach). The edited Excel file is as attachment.

##### #4738 - 2024-09-16 07:24 - Lotta Sokka

- Attachment *FIN\_additional\_updates\_2025\_16.9.2024.xlsx* added

- Attachment *FIN\_updates\_2025\_edited\_16.9.2024.xlsx* added

Finnish Institute for Health and Welfare has released some new updates for NCSP which we would still like to have in our 2025 grouper version. The updates are in the Excel file attached (*FIN\_additional\_updates\_2025\_16.9.2024.xlsx*).

In addition, there are some changes in the original updates we sent before. Those changes can be found in the Excel file *FIN\_updates\_2025\_edited\_16.9.2024.xlsx*.

##### #4745 - 2024-09-18 17:25 - Kristiina Kahur

- Status changed from Active to Closed

#### Nordic Casemix Centre/Kristiina Kahur 2024-9-18

Thank you for updates. All changes have been taken to MBC/NDMS.

FIN2025PR0 tables will be delivered according to the NCC 2024 timetable.

This task is closed.

##### #4753 - 2024-09-24 07:11 - Kristiina Kahur

#### Nordic Casemix Centre/Kristiina Kahur 2024-9-24

This is to inform that additional changes were made concerning the updates of Finnish primary classifications.

The mapping of following national codes to NCSP+ codes was corrected:

nat_code	nat_text	orig plus_code	updated plus_code	plus_text
LAE12	Munasarjan poisto emättimen kautta	LASE12	LASE04	Unilateral transvaginal oophorectomy
LAE22	Molemminpuolinen munasarjojen poisto emättimen kautta	LASE22	LASE24	Bilateral transvaginal oophorectomy
LAF02	Munanjohtimen ja munasarjan poisto emättimen kautta	LASF02	LASF04	Unilateral transvaginal salpingo-oophorectomy

LAF12	Molemminpuolinen munanjohtimien ja munasarjojen poisto emättimen kautta	LASF12	LASF15	Bilateral transvaginal salpingo-oophorectomy
LBE02	Munanjohtimien poisto emättimen kautta	LBSE02	LBSE04	Unilateral transvaginal salpingectomy

The names of NCSP+ codes remained as originally suggested, only the NCSP+ codes were corrected.

In addition FIN ATC codes for Ofatumumab were mapped to two valid ATC+ codes L01FA02 Ofatumumab and L04AG12 Ofatumumab in NDMS/MBC. All national codes for Ofatumumab have been kept as they have appeared in NDMS previously. Currently there are following ATC codes for Ofatumumab in FIN version:

L01FA02 Ofatumumabi

L04AG12 Ofatumumabi

L01XC10 Inactivated at 31.12.2021 - Ofatumumabi → mapped to L01FA02 Ofatumumab

L04AA52 Inactivated at 31.12.2023 - Ofatumumabi → mapped to L04AG12 Ofatumumab

None of the changes has impact on grouping features of national codes.

This task remains closed. Any changes to FIN2025PR version will be reported on #919.

#### #5048 - 2025-06-04 16:13 - Kristiina Kahur

- Task type changed from Case to Primary classifications

- Target Group deleted (FIN)
